The PN weld nut features a strong single button projection which gives a deeper, more "Penetrating" weld than is ordinarily obtained from other types of projections. Thus, the PN is ideal for use with heavier gage material. The PN weld nut is easy to position on both flat and curved surfaces and has a self-locating pilot that provides more thread depth. Use of the PN nut assures a positive and permanent fastener foundation.

Material:C1010 High-Welding
Quality, Low Carbon Steel

Finish:Plain, Unless Specified

Threads:Unified Standard Class 2B
ASME B1.1-2003
