RE: Dodd Frank – Wall Street Reform and Consumer  
Protection Act, Public Law 111-203  
(124 Stat, 2213 – 2218) (HR 4173)

Dear Customer;

The Ohio Nut & Bolt Company has solicited our suppliers accordingly as to their compliance to the Dodd – Frank law. We affirm that to the best of our knowledge, any product purchased from these suppliers is said to be Democratic Republic of Congo Conflict free. These products have no metals derived from minerals or intentionally added minerals that would appear on the "critical minerals" list. This list includes: Columbite-Tantalite (tantalum), Cassiterite (tin), gold and Wolframite (tungsten) all which appear in the Public Law 111-203.

In addition, The Ohio Nut & Bolt Company is a privately held company and does not fall under the requirements of publicly-traded companies.

Thank you,

Don Michalak  
Engineer
