

# Buckeye Fasteners Company

---

January 2019

## Regulatory Requirements

### **European Union's Restriction on Use of Hazardous Substances in Electrical and Electronics Equipment (RoHS) Directive 2015/65/EU.**

Our products do not exceed the maximum concentration value limits as specified by the Directive for the following restricted substances:

- Cadmium and cadmium compounds - 0.01% (100 ppm)
- Lead and lead compounds - 0.1% (1000 ppm)
- Mercury and mercury compounds - 0.1% (1000 ppm)
- Hexavalent chromium compounds - 0.1% (1000 ppm) *(except where requested by the customer)*
- Polybrominated biphenyls (PBB) - 0.1% (1000 ppm)
- Polybrominated diphenyl ethers (PBDE) - 0.1% (1000 ppm)

### **Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) requirements (through Annex XVII).**

The fasteners produced by Buckeye Fasteners Company do not contain any substances over the allowable thresholds (manufacture/import < 1 ton of a restricted substance each year). Additionally, fasteners produced by Buckeye Fasteners Company do not contain any substances over the allowable thresholds listed in the following:

- Joint Industry Guide No. JIG-101 Ed 4.1 (May 2012)
- Global Automotive Stakeholder Group (GADSL version 1.0 revised 02/01/2018)
- Substances of Very High Concern (SVHC)

### **Conflict Minerals Regulations:**

Some of our parts may contain Tin, which is sourced from Conflict Free suppliers that are conflict free certified or have submitted for certification. Our EICC Conflict Minerals Reporting Template is available upon request.

### **California Proposition 65 Requirements:**

Although 300 Series Stainless Steel contains the chemical element Nickel (Ni), no exposure concerns are expected to be associated with its intended use. No warning label is necessary.

### **SDS Requirements / IMDS**

SDS/IMDS submissions are made available upon request.
